## PROFILE

A vocational high school student with a strong interest in information technology, highly adaptable, and quick to learn new skills. Actively involved in the school's IT division (OSIS) and entrusted with various programming projects, including mentoring junior students. Proficient in graphic design and photography, with a strong commitment to continuous skill development.

## EDUCATION

**SMK TI Bazma • Information Systems, Network & Applications** **2022 - Present**

## EXPERIENCE

**Programming & IoT Mentor • SMK TI Bazma** **July 2024**

Guided junior students in basic programming (HTML, CSS, JavaScript) and IoT systems, including microcontroller basics, components, sensors, and online simulators like Wokwi.

**ICT Division, Student Council • SMK TI Bazma** **Nov 2022 - Nov 2024**

Managed Student Council social media consistently, documented school events, and distributed information to the school community.

**Design Club Member • SMK TI Bazma** **Jan 2023 - Dec 2023**

Improved graphic design skills through various projects using Adobe Illustrator, Adobe Photoshop, and Canva.

## PROJECTS

**Redesign Bazma Website (NextJS, TypeScript, TailwindCSS)** **February 2025**

- Redesigned Bazma's official zakat distribution website using Next.js, TypeScript, and TailwindCSS.
- Developed a responsive and modern interface with reusable components for improved user experience.

**GameStore Website (HTML, TailwindCSS)** **November 2024**

- Designed and built an online game catalog using HTML and TailwindCSS.
- Featured a clean main page and product detail section to enhance user experience.

**Sarpras | SISMAKO SMK TI Bazma (PHP, Laravel)** **October 2024**

- Contributed to managing school inventory and asset loan systems.
- Built the backend and admin dashboard for efficient data handling and reporting.
- Collaborated with team members using Git and Laravel.
